Transition into Key Stage 4

Introduction

This document is set out to guide and inform those parents/carers whose child is following a two year programme of study at Key Stage 4 starting in September 2020. Throughout years 10 and 11 it is our intention to develop pupil's full academic potential within an environment which supports and prepares them for post 16 placement in full-time education or educational training. Each pupil will be offered accredited courses and life skill units appropriate to their needs and abilities. Within this document parents/carers are given an outline of each area of the curriculum that is on offer to your child.

Key Stage 4 Curriculum

At Alderman Knight School we are committed to providing the very best education we can for all our pupils. Because of the wide range of individual needs, we believe that a 'one size fits all' curriculum model is not appropriate and cannot meet the differing needs of all our pupils. As a result we have always tried to provide a curriculum as flexible and personalised as possible.

Our aim is to provide a meaningful and relevant set of learning experiences which together provide an engaging curriculum enabling both participation and achievement for all our pupils whilst preparing them for the future.

Following consultation with staff and pupils this year we feel the most beneficial route for your child include the following subjects English, Maths, Science, Food, Personal Social Development, Physical Education, Art and Design, Arts Award, Computing and RE. All pupils are offered accreditations in these subjects at an appropriate level.

Work Experiences

Pupils in this tutor group will get the opportunity to visit different places of work to find out what it is like to be part of this community and how it is different from the school environment. If it is felt appropriate pupils are given the chance to go out to work in places in the immediate local community e.g. working at the Touching Souls Tea Rooms at Tewkesbury Abbey on the days that the school run these.

College links

Many pupils leave Alderman Knight School to continue their education with the local college providers. During Years 10 and 11 pupils experience taster days at the colleges they are interested in studying at. Within these link taster days pupils not only gain a feel for the colleges but experience learning within classes. Furthermore, college assessments are conducted to assess the extent to which each college is able to meet every child's needs.

In October, we invite local colleges into school to participate in the first parents evening. This is an opportunity to allow parents of pupils in years 9,10 and 11 to speak to each provider to see what post-16 education opportunities are on offer for their child.

Accreditations at Key Stage 4

Pupils following this curriculum are entered for accreditations at levels appropriate to their abilities. Entry Level is the lowest level in the National Qualifications Framework. Courses at this level recognise basic knowledge and skills and the ability to apply learning in everyday situations under direct guidance or supervision.

<u>Qualification Title</u>	<u>Level of accreditation</u>	<u>Subjects offered at this level</u>
Entry Level Certificate	Entry Level 1, 2 or 3	Maths English Science Arts Award Personal Social Development Computing PE
Unit Awards	Pre Entry & Entry Level	Art Religious Education Food Technology DT

In addition to the subjects above that are accredited, your child's timetable will include a range of other opportunities to ensure they have a broad and balanced curriculum providing them with skills to support them in their transition to Post 16 provision and towards greater independence. These opportunities will include activities such as Forest school, work experience, working with the community and additional classroom based sessions such as basic skills in IT, work skills and life skills.

English

Overview of subject	<p>Entry Level Certificates are nationally recognised qualifications that give learners the opportunity to achieve a certified award.</p> <p>Entry Level learners will develop the skills they need to read and understand a range of texts as well as to write clearly, coherently and accurately using a range of vocabulary and sentence structures.</p>
Exam board, qualification title and level	<p>AQA Entry Level Certificates: Step Up to English Silver Step: Entry Level 1 to 2</p>
Qualification overview	<p>Silver Component 1: Literacy Topics (x 2 = 50%) Spoken language task • Presenting • Responding to questions and feedback Reading tasks Three transactional texts Writing task Transactional writing</p> <p>Component 2: Creative Reading and Writing (50%) Section A Reading Two literary texts Section B Writing Creative writing</p>
Assessment	<p>Silver Component 1: Literacy Topics x 2 Externally-set non-exam assessment: up to 1 hour and 30 minutes. Internally assessed, externally moderated. Spoken language: One task linked to topic(s) Reading: three linked reading tasks and short form questions Writing: one longer form writing task</p> <p>Silver Component 2: Creative Reading and Writing x 1 Section A Reading: two literary texts Section B Writing: creative writing Externally-set non-exam assessment: up to 1 hour and 30 minutes. Internally assessed, externally moderated. Reading (30 marks) • two linked texts • short form questions Writing (30 marks) One longer form writing task</p>

Maths

Overview of subject	This courses provides basic relevant mathematical skills building confidence in the pupils ability within this subject. This courses enables pupils to engage, explore, enjoy and succeed in maths.
Exam board, qualification title and level	AQA Entry Level Certificate Levels are awarded by the exam board on the number of marks pupils achieve in the various units of work.
Qualification overview	Units of work studied may include: <ul style="list-style-type: none">- The properties of number- The four operations- Ratio- Money- The calendar and time- Measures- Geometry- Statistics
Assessment	Learners compile a portfolio comprising eight components of work made up of between four and eight external assignments, the remaining components made up of internally set classwork.

Science
